## **CUSTOMER ADVISORY**

### **NEW TSA SCREENING REQUIREMENTS**

### **EFFECTIVE 1<sup>ST</sup> FEB, 2009**

As of 1<sup>st</sup> February, 2009, the airline industry is required by the Transportation Security Administration (TSA) to screen 50% of all cargo loaded on passenger aircraft from or within the U.S.A.

These new regulations also require that cargo must be tendered loose to the airline. Individual pieces must not be shrink wrapped or banded to skids and/or pallets, unless the entire skid is wrapped in cardboard in such a fashion as not to have any individual pieces visible. In addition to this, all individual pieces must be marked and labeled. Cargo tendered on skids, wrapped in clear plastic and scheduled on passenger aircraft will either be broken down for tender (to enable screening by the carrier), or will be forwarded on freighter aircraft.

The TSA also requires us to have a written consent to screen all shipments tendered for transportation by air, and we are prohibited from accepting, and restricted by law to tender any cargo to an air carrier where we have not been given written consent to screen.

This can be in the form of an individual declaration on shipping documents, or in a blanket declaration which indicates that this consent covers all shipments tendered by said shipper until revoked.

An example of the blanket consent form follows this coversheet. It is to be reproduced on the shipper's letterhead, clearly indicating the shippers full name, address and telephone number, as well as designating the IAC name consent is being given and the date of notification.

Please do not hesitate to contact us if you have any questions regarding this consent, or the new regulation as issued by the TSA.

Very best regards,

Express Air Freight Unltd., Inc.
